

UNWANTED

The Dirty Dozen

Purple Loosestrife

Dalmatian Toadflax

Spotted Knapweed

Sulphur Cinquefoil

Hound's-tongue

Puncturevine

Tansy Ragwort

Orange Hawkweed

Rush Skeletonweed

Yellow Starthistle

Velvetleaf

Leafy Spurge

CRIME: choking out native plants and crops, and seizing vast amounts of land

YOU CAN HELP STOP THE SPREAD OF THESE UNWANTED INVASIVE PLANTS:

- Learn to identify invasive plants and take action to control them on your property
- Minimize soil disturbance and re-seed disturbed soils with a competitive seed mix
- Remove plant fragments from vehicles and equipment before leaving an infested site
- Stay on existing trails and paths during recreational activities

REPORT any sightings of rush skeletonweed, yellow starthistle, velvetleaf or leafy spurge to the RDOS Invasive Plant Program Coordinator at (250) 492-0237 or info@rdos.bc.ca
